

Welcome to Teatime Science!!

Kurashiki Amaki Senior High school

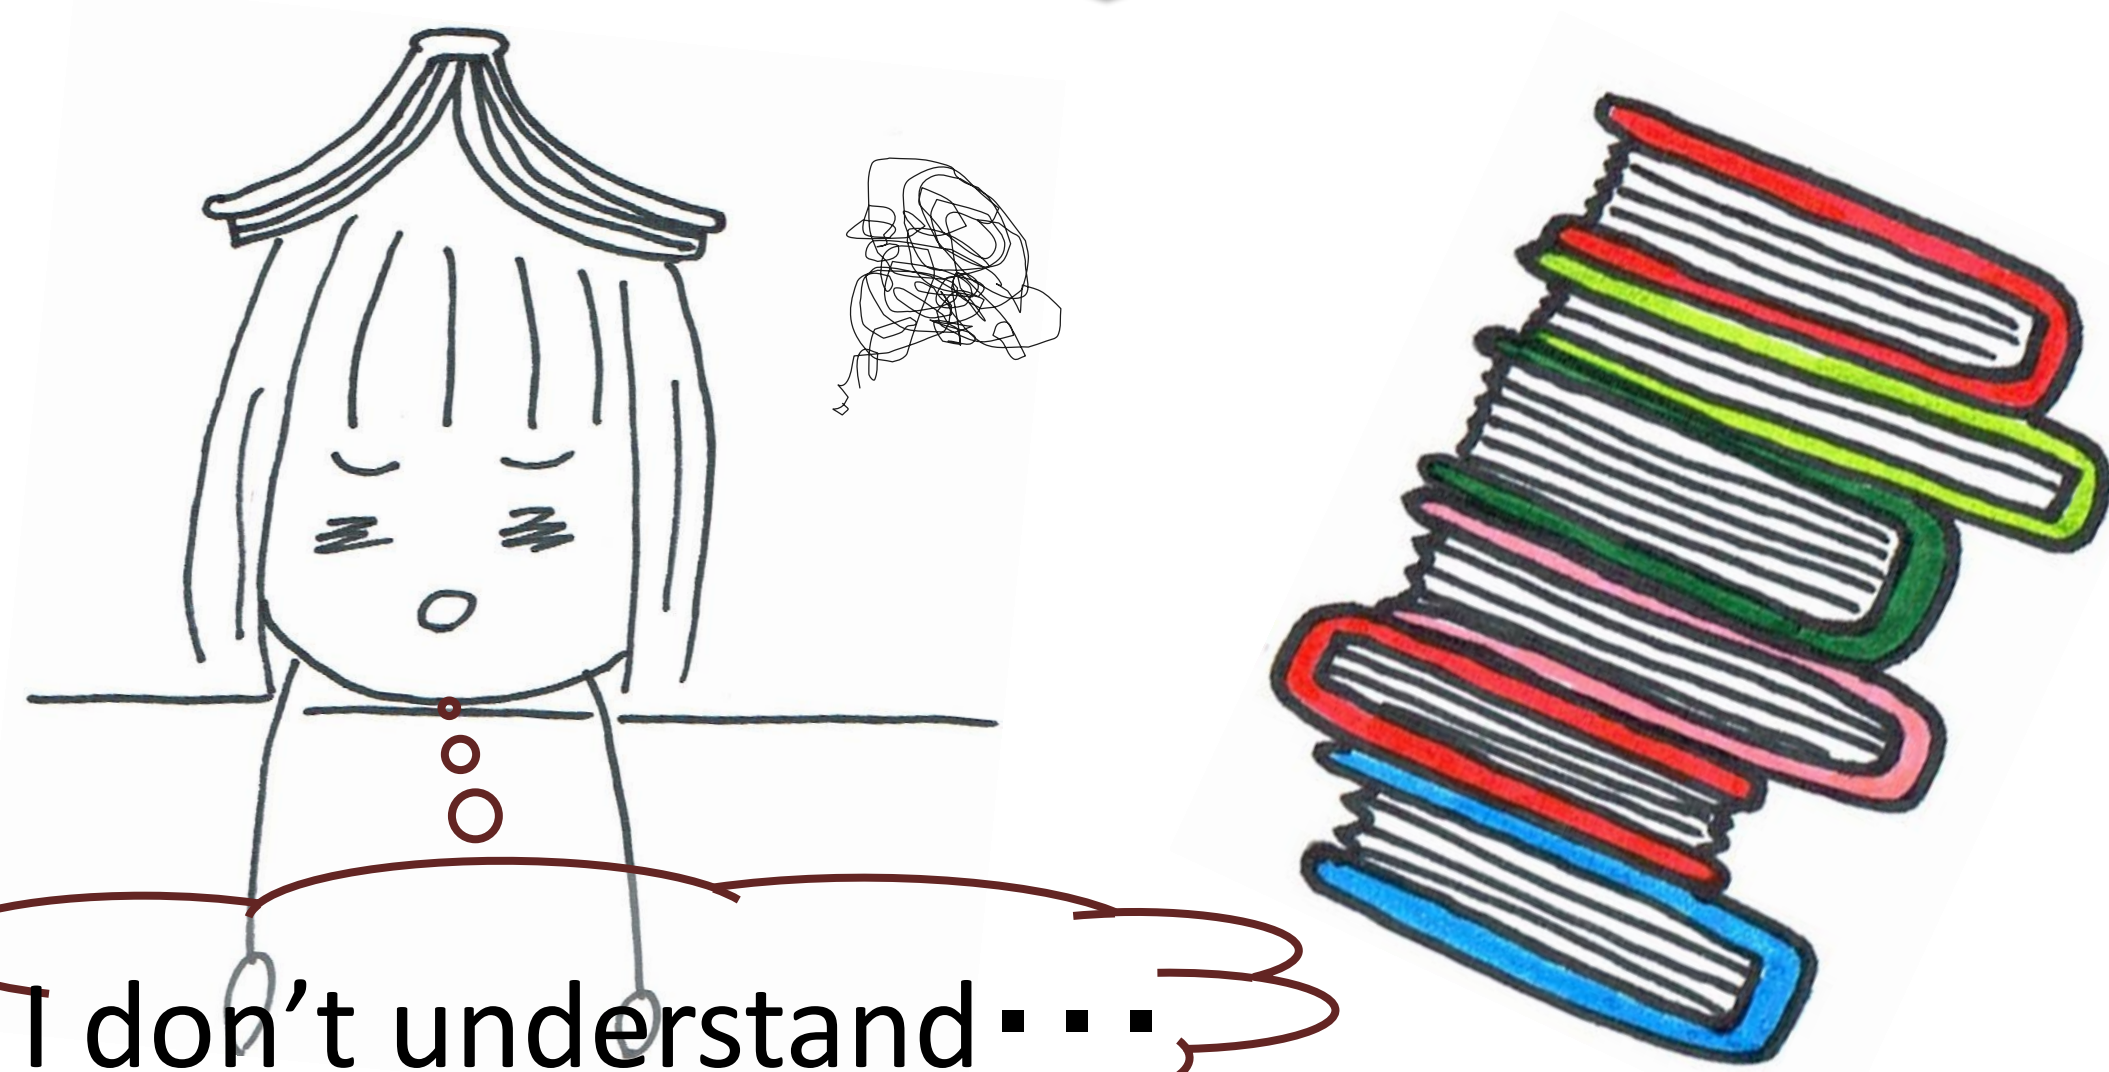

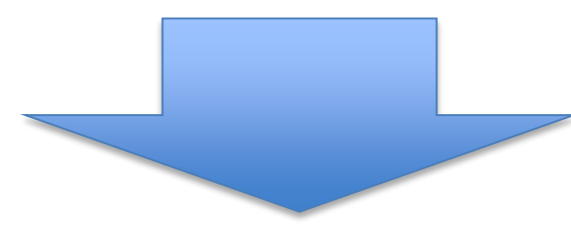

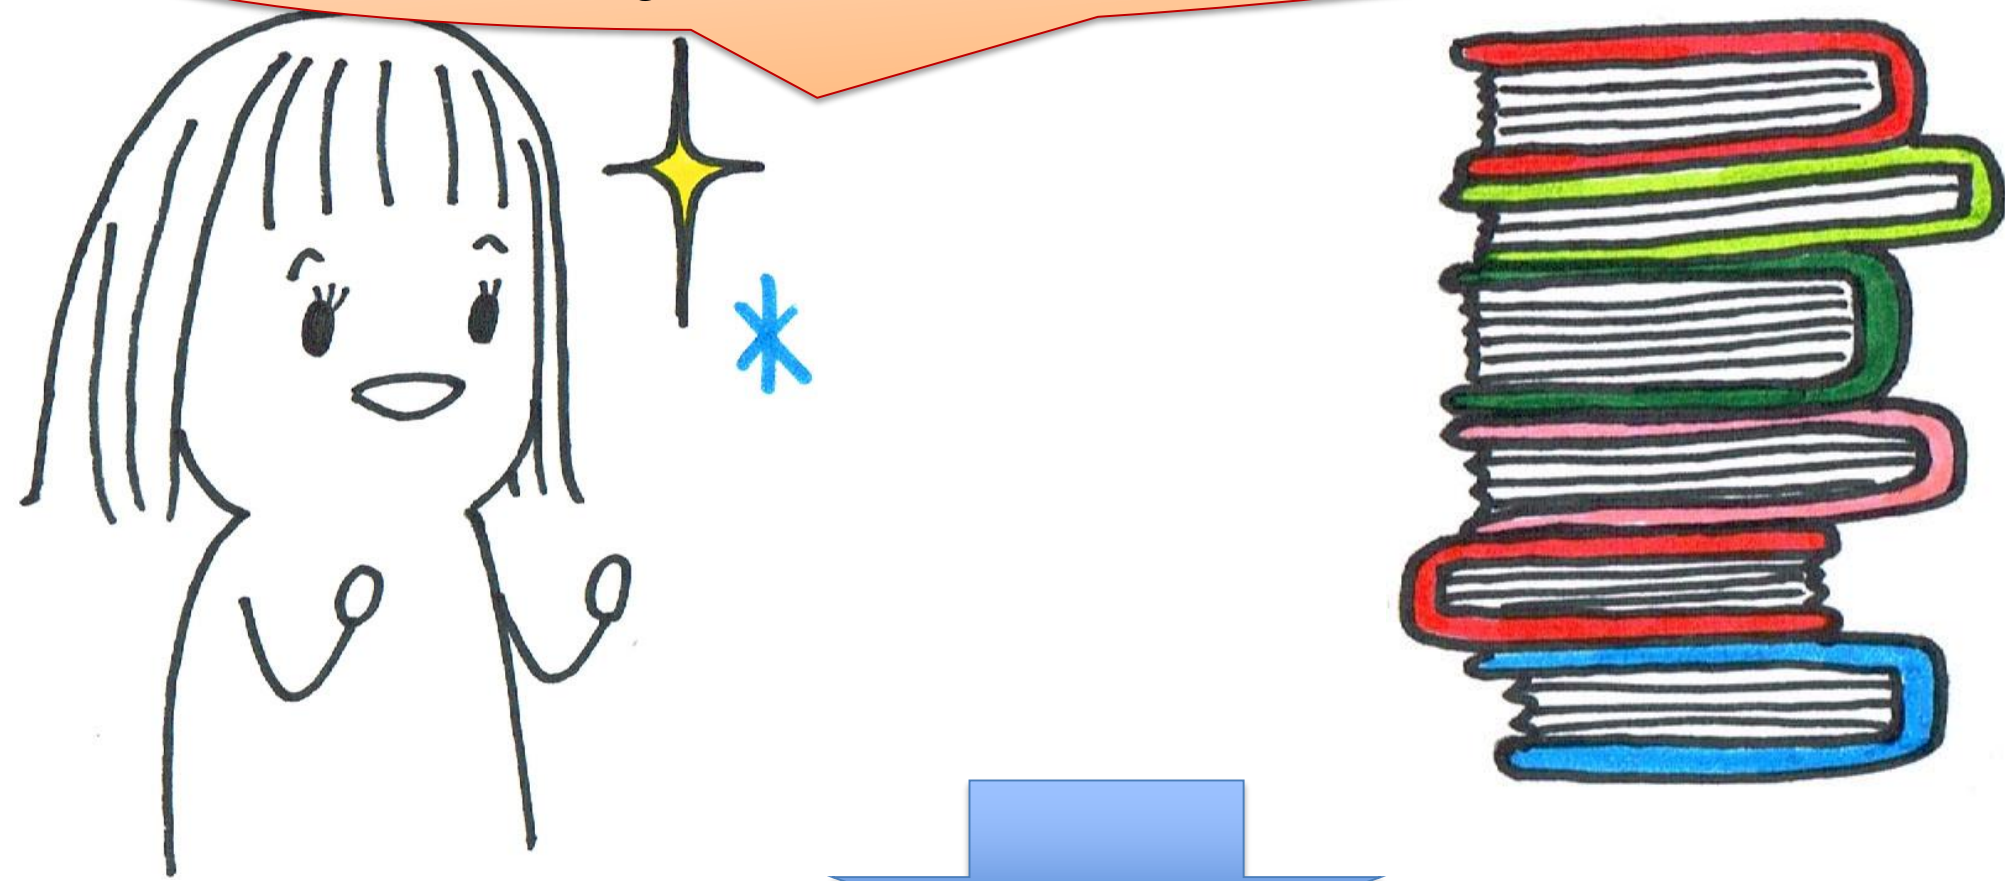

Momo Sato

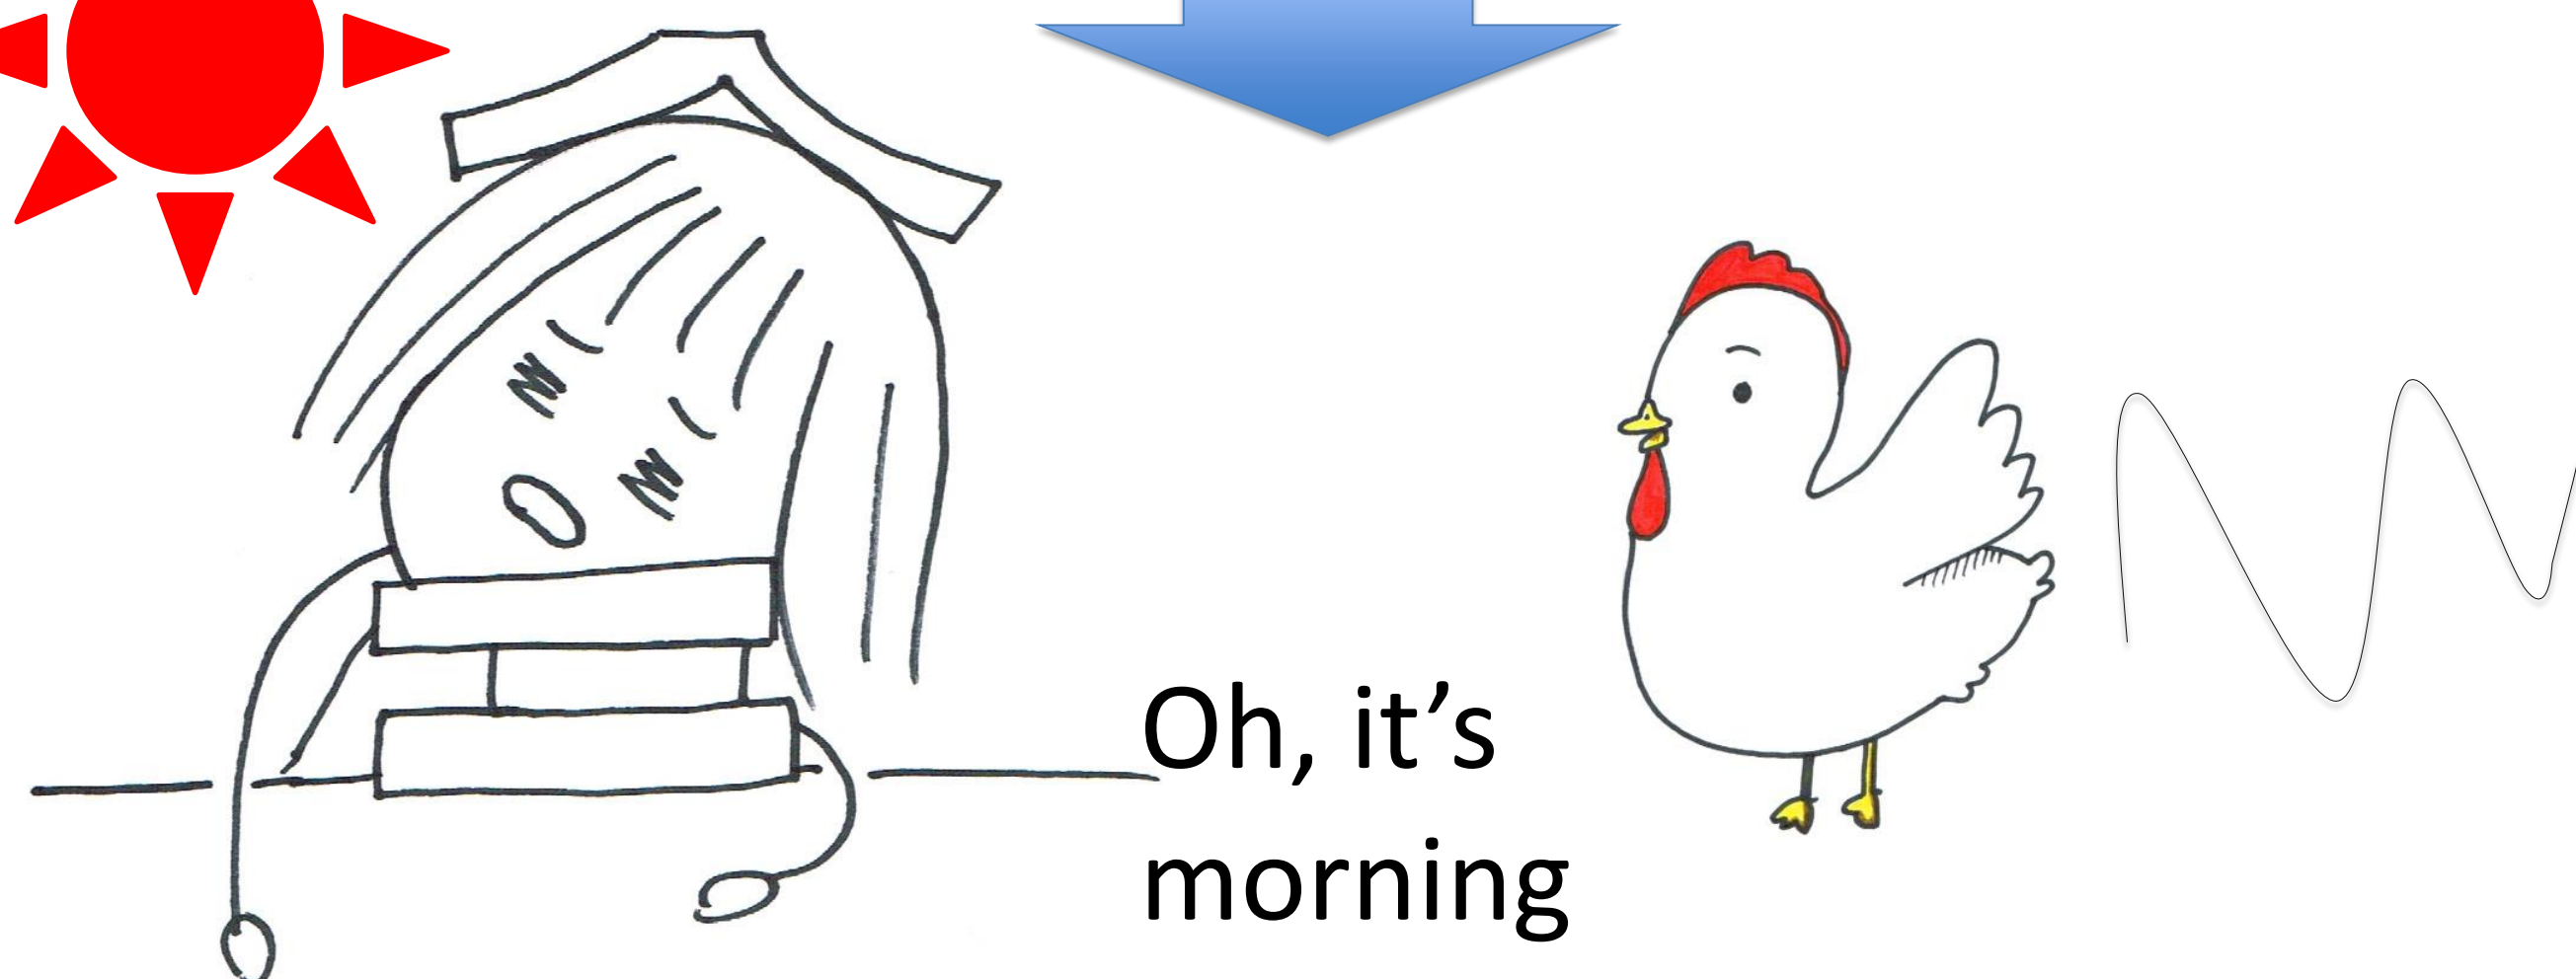

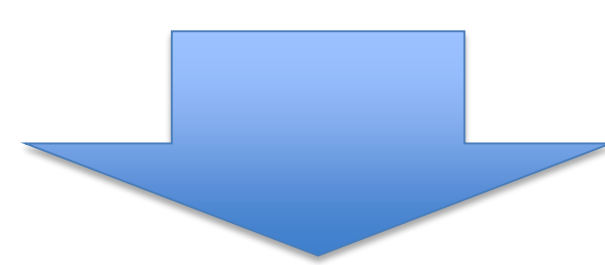

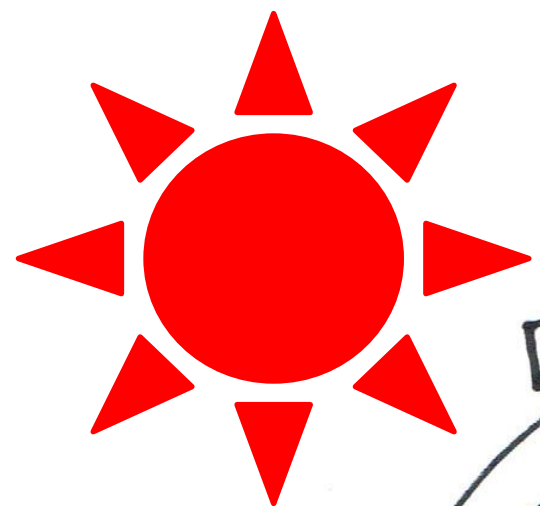

Introduction

Q Have you ever felt that studying science is difficult?

Let's read the book about science!

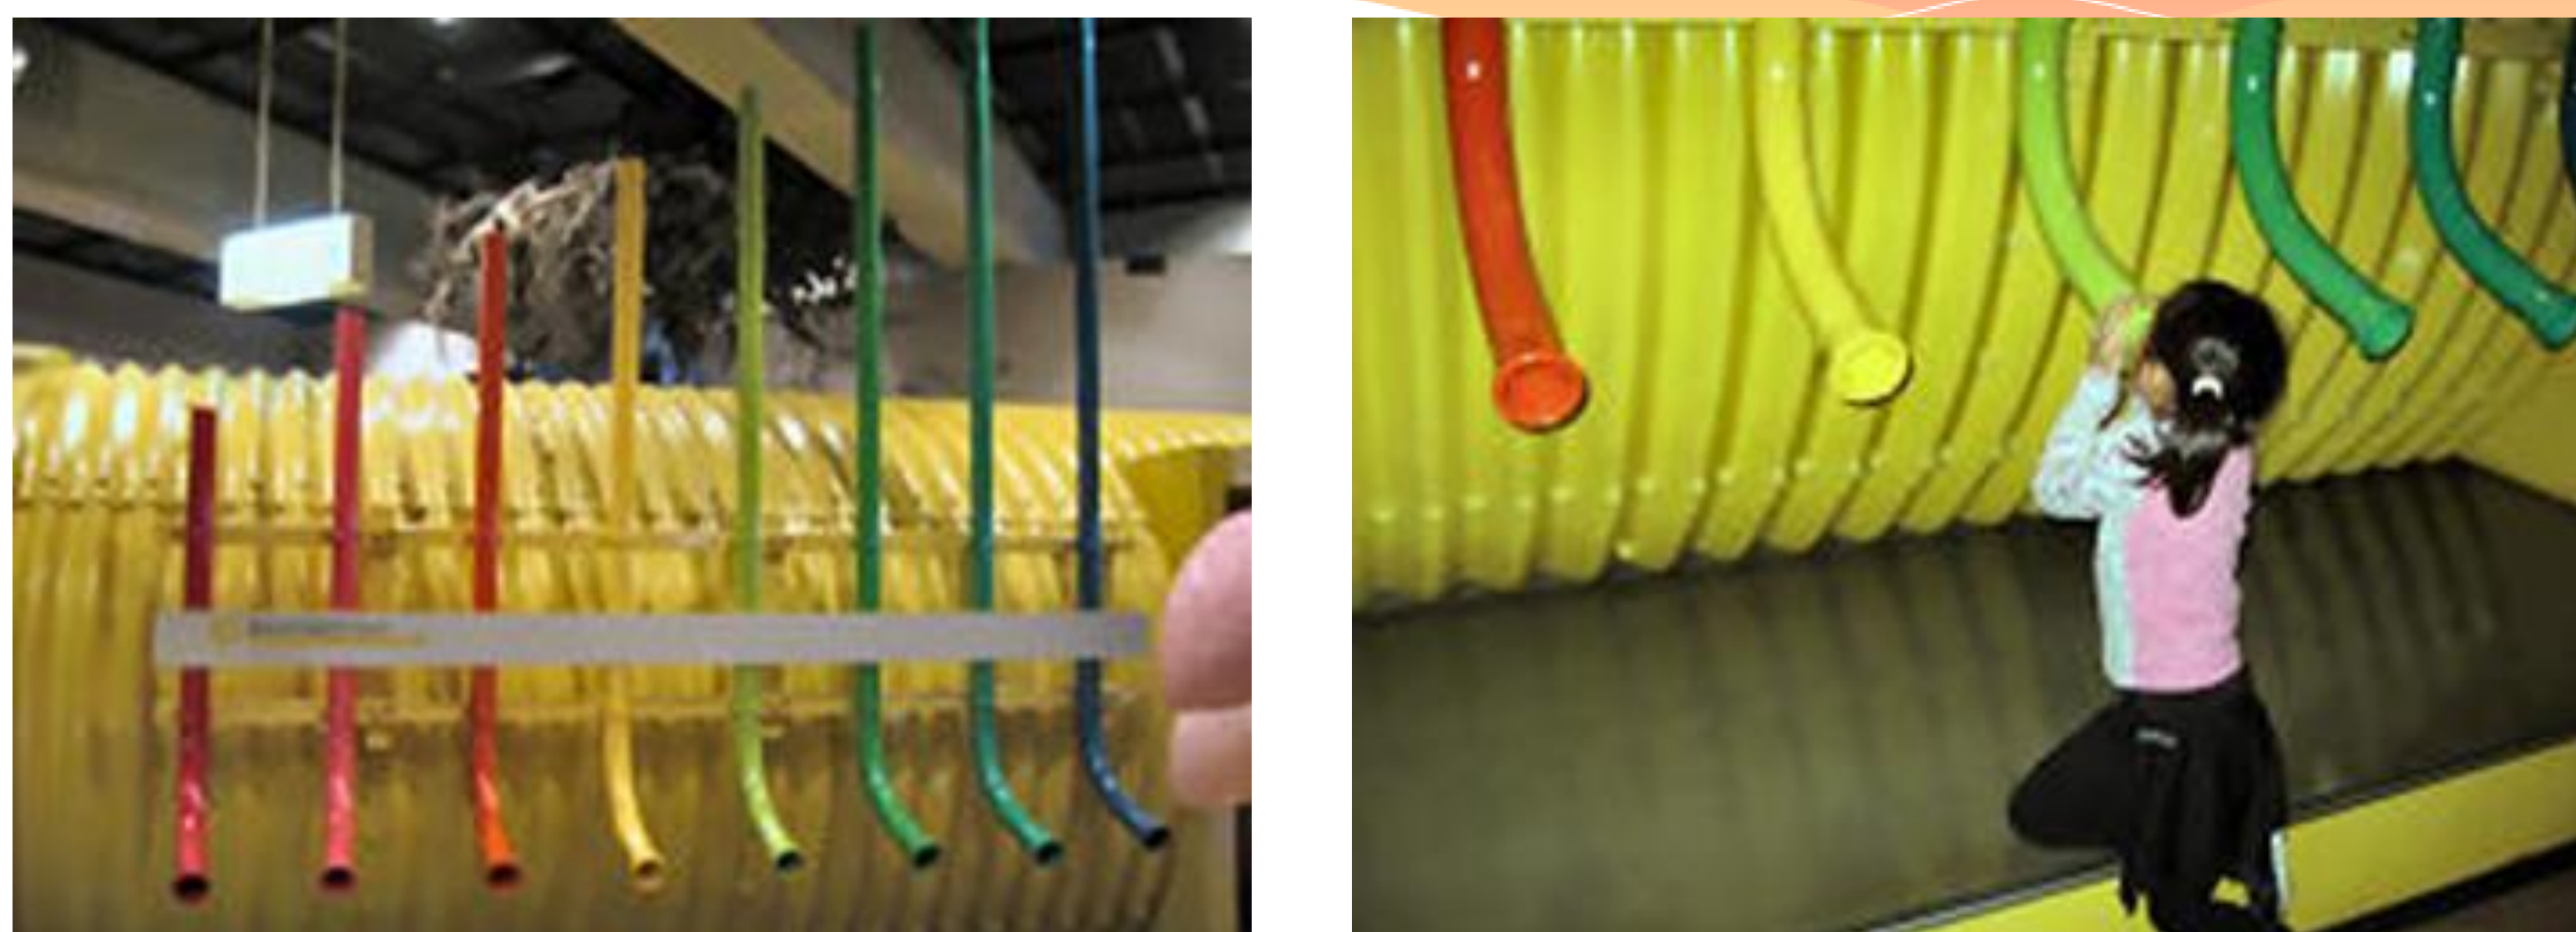

I don't understand...

Oh, it's morning

Science museum

wind horn

Science = Excites us even though we don't understand the theories involved

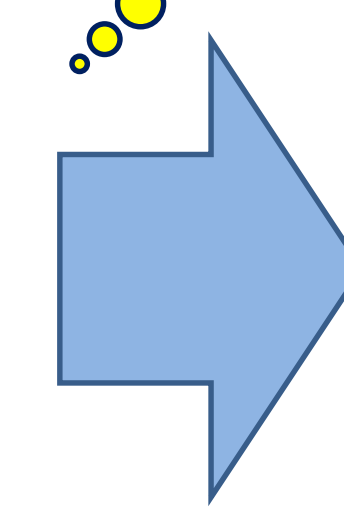

If we can understand the theories and principles behind

We can understand
Feel more excitement!!

Enjoy studying science

movie

difficult

easy

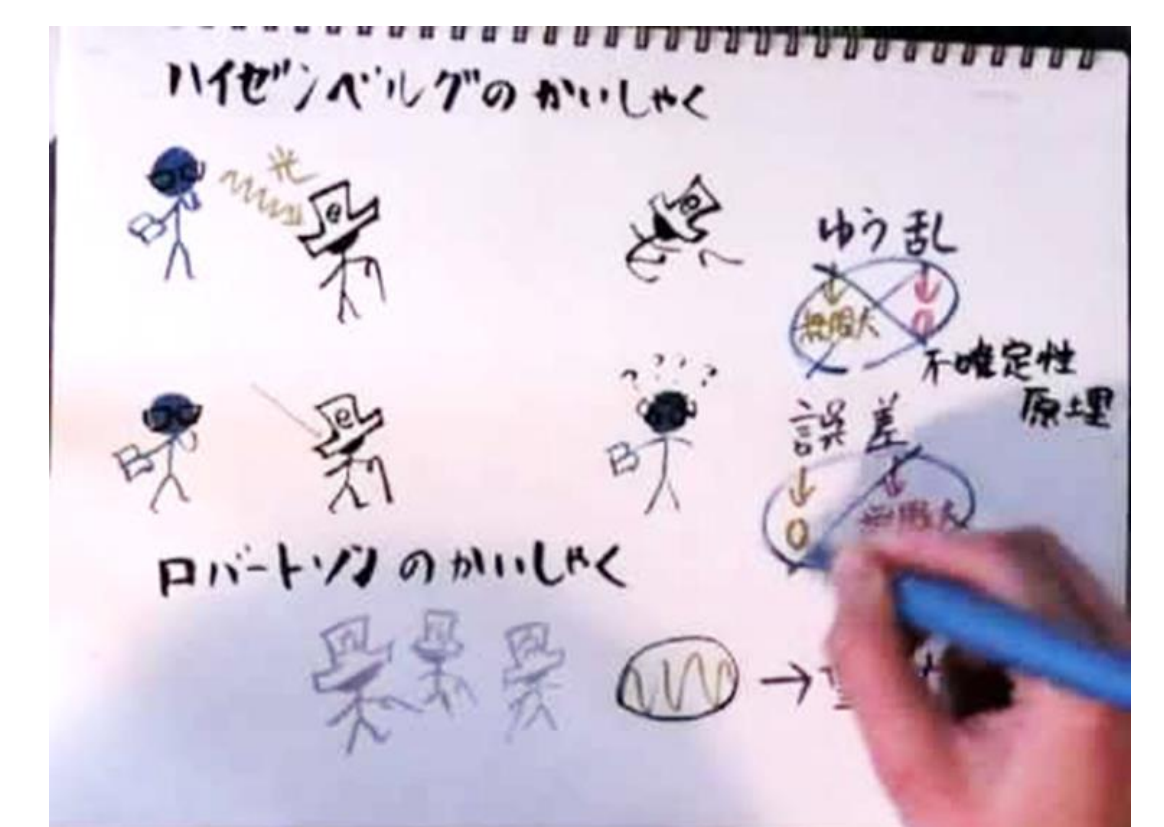

Research

movie →visually

→easily understood

Ms.Misato Hayashida:

「Teatime Elementary Particles Theory」

Works

- Nature of sound
- Loudness of sound
- Sound pitch and frequency
- Pure sound , complex sound
- Complex sound and spectrum
- Musical instruments and tone
- Classification of musical instruments

Result

- Easy to understand
- Interesting
- Interesting to watch
- Pictures are interesting
- A little fast
